

HIGH PRESSURE WASHDOWN UNITS

General Information

Fisher Offshore specialises in the sale and rental of high quality Offshore Zone 1 High Pressure Hot Water units.

These robust units are capable of tackling a wide selection of washdown jobs around offshore platforms including drill floor, general rig maintenance and tank cleaning.

The full range of HP Hot Water Washdown units available for sale or rental include the ST 300 EEx, ST 300 EEx Twin and the flagship ST 300 EEx Quad multi-user system.
