

Orange Peel 15 Tonne Grab

Fisher Offshore's orange peel grab can be quickly and efficiently operated via deck controls/diver control stand or ROV hot stab set up.

The hydraulic system comes with a safety load valve that allows the grab to keep any load secure in case of hose/hydraulic failure. It comes with a manual bypass valve that can be ROV or diver operated to release the load once safely lowered again to the seabed.

The grab comes with its own shipping corral, HPU and reeler. Fisher Offshore can supply matching subsea baskets to suit client requirements.

Suitable for removing and dumping a variety of subsea related material including:

- Rock dump
- Pipelines
- Boulders
- Grout Bags
- Cables
- Concrete mattresses
- Mixed debris
- Valves
- Timber
- Assorted seabed waste/scrap

Orange Peel 15 Tonne Grab	
Model	HOPGH-MD 2800
Capacity	2.8m ³
Width Open	3336mm
Width Closed	2387mm
Height Open	3221mm
Height Closed	3640mm
Grab Internal Reach	3075mm
No. of teeth	5
Rotor load	15Te
Pressure	180 - 350 bar
Oil flow	60 - 190 l/min
Weight	5800kg
Connections	3/4" butterfly
Fully CE Marked
