

# Stanley HD45 Hydraulic Hammer Drill

## Fisher Offshore supplies a heavy duty hydraulic hammer drill, the Stanley HD 45.

The HD45 is ideal for heavier duty drilling jobs. It can drill 1 - 2 inch holes up to 30 inches deep. The adjustable bit rotation (forward and reverse) permits choice of BPM / RPM ratios for easy starting of core drills and for maximum penetration. It hits at over 2200 blows per minute.

Stanley HD45 Hydraulic Hammer Drill	
Capacity	No. 736 Skil Carbide - Tip Bits
Weight	20.4 kg
Length	57 cm
Width	35 cm
Pressure	105 - 140 bar
Flow Range	26 - 34 l/min
Optimum Flow	30 l/min
Porting	½ SAE O-ring
Hose Whips	Yes
Connector Size and Type	Aeroquip 5100-12
System	Open Centre
